SYNC

PROJECT UDYAM DIGITAL

A simpler path from SMB need to activation

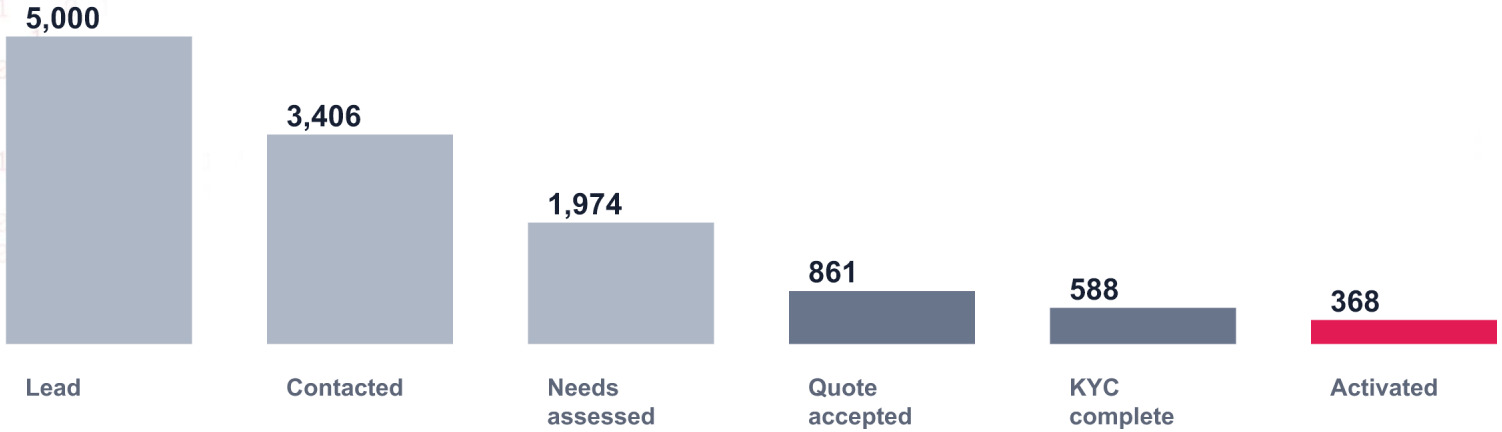

CodeRunners · ABVIIITM

Platform Partner unstop

PROBLEM EVIDENCE

The funnel loses most leads before activation

5,000 leads · Apr–Jun 2026 · fictional challenge data

56% of assessed leads do not accept a quote

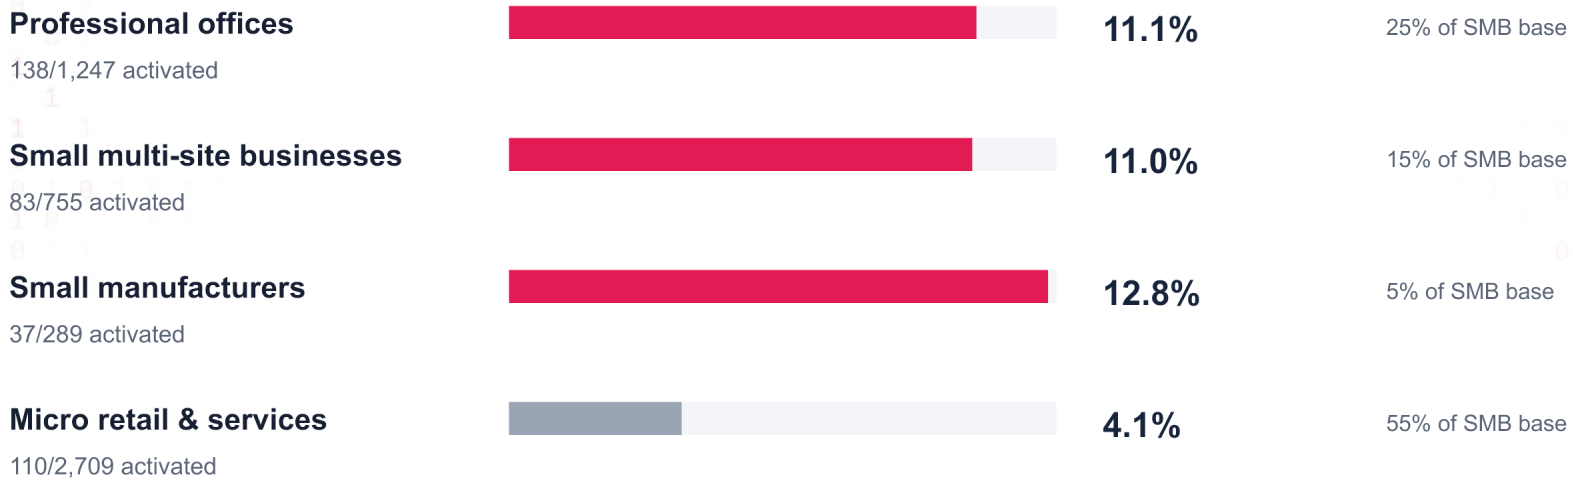

32% of quote acceptances stop on KYC or paperwork

Activation: 7.4% · 17.6 days mean · 3.0 follow-up calls

TARGET CUSTOMER

Start where conversion and volume meet

Observed activation by segment (sample rates; not causal)

Beachhead **Professional offices + multi-site businesses; keep a low-cost self-serve path for micro firms.**

CUSTOMER JOURNEY

A guided quote makes the bundle understandable

MICRO RETAIL	**No fibre · 1 site · 1 SIM · POS** P04 + P07 + P19	**₹1,797 / month** ₹2,500 setup
PROFESSIONAL OFFICE	**Clinic · 1 site · 3 users · GSTIN** P02 + P12 + P16×3 + P20×3	**₹3,171 / month** ₹2,000 setup
MULTI-SITE	**3 sites · 10 employees · GSTIN** P02×3 + P09×3 + P10×3	**₹13,494 / month** ₹19,500 setup

ASK	SHOW	VERIFY	TRACK
Recommend	**Price + add-ons**	**Consent + mock KYC**	**Status + partner help**

Illustrative starting prices from the supplied catalogue; taxes, coverage and site feasibility excluded.

ARCHITECTURE & OPERATING MODEL

A local journey with controlled handoffs

Owner-facing flow

PROFILE — Need + size → **ADVISOR** — Catalogue rules → **QUOTE** — Monthly + setup → **KYC** — Consent + mock checks → **TRACKER** — Order status

LOCAL DATA

Product catalogue · SMB leads · mock GSTIN registry · mock Udyam registry · KYC specimen fixtures

EXCEPTION ROUTE — **Missing / cancelled / mismatched record → masked manual-review queue → local partner or sales follow-up with consent**

Streamlit · session-only demo state · no external AI, database or government calls

COMPETITIVE COMPARISON

The gap is the journey between products

JIOBUSINESS	TATA TELE BUSINESS	AIRTEL BUSINESS
• Small-office bundles combine internet, voice and work tools • Options include collaboration, cloud storage and security • Digital self-care covers plans, bills and service requests • 24/7 assisted care is also promoted	SmartOffice broadband bundles internet with voice, endpoint and DNS security, plus Microsoft tools. Smart Internet combines leased-line connectivity, DNS security, a DIY policy portal and reporting. TTBS lists proactive managed support; broadband plans are filtered by city, bandwidth and plan.	• SME portfolio includes internet, mobile, cloud calls and collaboration • Service tickets go through its business portal or service manager • Some plan changes are handled through account support • Dedicated internet uses a site study and feasibility check

Opportunity

Turn Airtel's broad portfolio into one guided SMB path: fit → full quote → consented review → trackable handoff.

IMPACT & ROLLOUT

Prove adoption and activation in a 90-day pilot

BASELINE	PILOT TARGET*	
Lead → activation	7.4%	→ **≥10%**
Needs assessed → quote accepted	43.6%	→ **≥55%**
Quote accepted → KYC complete	68.3%	→ **≥80%**
Mean lead → activation	17.6 days	→ **≤12 days**
Customer chase calls	3.0	→ **≤1**

ILLUSTRATIVE VALUE CASE

+132 activations

At 10% conversion: 500 activations per 5,000 leads, versus 368 observed (7.4%).

₹2.37–4.19L / month

Gross list-price run-rate if all 132 incremental businesses chose bundles priced ₹1,797–₹3,171/month (micro to single-site clinic). Before discounts, tax and costs; not a forecast or ROI.

PILOT

Weeks 0–2 · instrument and recruit partners

Weeks 3–6 · launch in selected Tier 1/2 clusters

Weeks 7–12 · review funnel and expand selectively

Targets are pilot hypotheses. Churn is missing; reconcile case CAC ₹15,000 vs CSV mean ₹5,385 before ROI claims.
